

SILVER ARROW CARGO

SILVER ARROW CARGO

Whether for commercial or recreational hauling, Silver Arrow aluminum cargo trailers are designed and built for the discriminating trailer owner.

An aluminum trailer is lighter and more economical to tow than a conventional steel trailer, without sacrificing any strength.

The use of quality integrated aluminum components like cast aluminum front corners, perimeter tube rails on top and bottom, 16" on-center posts for floor, ceiling and walls, and .030 aluminum exterior panels attached with 3M® VHB adhesive for a sleek rivet-free appearance all add up to assure you will have years of trouble-free service.

Premium construction techniques, great standard features, plus an aerodynamic V-nose design make Silver Arrow your best choice for an aluminum trailer. A Five Year Limited Warranty comes standard with every Silver Arrow aluminum trailer, all backed by Pace American's over twenty years in business.
